SAMEER ALI
Student

Motivated 1st year B.Sc. student specializing in Computer Science, Mathematics, and Artificial Intelligence & Machine Learning (AI/ML). Strong in programming, problem-solving, and analytical thinking, with proficiency in Python, C, C++. Experienced in academic projects involving data analysis and introductory machine learning. Passionate about applying technology and data-driven approaches to solve real-world problems and build a career in AI and Data Science.

OBJECTIVE

Motivated 1st year B.Sc. student in Computer Science, Mathematics, and Artificial Intelligence & Machine Learning (AI/ML), seeking opportunities to apply programming, analytical, and problem-solving skills in the field of AI and Data Science.

SKILLS

- Programming: Python, C, C++
- Libraries: Pandas, NumPy, Matplotlib, Seaborn
- Concepts: Machine Learning, Data analysis, Data Structures & Algorithms, Problem Solving.

RESEARCH ACTIVITY

- **House Price Prediction (Regression Model)** – Developed a regression model using Linear Regression to predict house prices based on features like location, size, and amenities; evaluated performance using error metrics.
- **Spam Email Classifier (NLP)** – Implemented a text classification model using basic NLP techniques and algorithms like Naive Bayes to classify emails as spam or not spam.
- **Sales Analysis Dashboard** – Created interactive dashboards in Power BI to visualize sales trends and key business insights.
- **Research Activity** – Studied CRISP-DM methodology and machine learning pipelines, understanding end-to-end AI/ML workflows.
